**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

A proper free market should allow customers the choice to choose whichever broadband service provider they want. I currently have Sonic gigabit fiber & since switching over to Sonic, my quality of internet (and life) have improved dramatically. I used to have AT&T and was hamstrung by their low speeds, expensive costs, and lack of quality customer service. Sonic's inclusion to the market helps to push all competitors to offer better rates & speeds.

The switch over to gigabit fiber has improved our ability to work at home with ease. My wife and I require a fast & reliable internet connection to get our work done -- something that was not available to us prior to Sonic.

Please continue to allow consumers to choose the services they want and need at competitive rates via a la carte offerings. Allowing AT&T to push their weight around and force bundled products on the consumer is un-American and anti-free market/anti-capitalism.
